

### **Our School Introduction:**

Creative Secondary School (CSS) is a progressive, English medium Direct Subsidy (DSS) school. In fact, we were the first publicly funded IB World School, offering both the MYP and IBDP to our students. Our philosophy and values embrace the essence of Chinese and international educational ideals. Academic rigour at CSS is complemented by a happy and vibrant school life.

We seek to prepare our students for the opportunities and challenges of our rapidly changing world. We aim to cultivate in them a strong sense of cultural identity, a passion for life and a commitment to make the world a better place.

CSS is an IB World School as well as a recipient of the Inviting School Fidelity Award awarded by the International Alliance for Invitational Education (IAIE). Students are engaged and enjoy their learning, discovering new perspectives and realising their potential. Within our culturally diverse learning community, we place great value on respectful and caring relationships. Our positive and supportive school culture develops confident, worthy students who are ready to lead and serve the wider community.

CSS is part of a continuum of 3 schools for students aged from 3 to 18 that share a common educational philosophy. Creative Primary School (CPS) and its kindergarten (CPSKG) were founded in 1985; CPS is also an IB World School and an award-winning Inviting School.
